

HE&M[®] 106 Rust Inhibitor ELIMINATOR

Eliminator 106 Rust Inhibitor is a solvent-based formula for the prevention of corrosion on critical productionm such as parts that must maintain a very strict tolerance.

- Non-Soluble Corrosion Inhibitor
- Can be used indoors and outdoors
- Provided protection for 25+ days in a humidity cabinet
- Safe to use on all metals
- Can be applied by spraying, rolling, brushing, or dipping
- Can be welded over
- Self healing formula will seal back together when surface is scratched or nicked
- Displaces water from metal surfaces after machining operations, or alkali cleaning
- Highly resistant to salt water, salt spray, water, and humidity
- Does not irritate operator's hands
- Can be cleaned from metal with alkaline cleaner or solvent
- One full year of indoor corrosion protection

Application:

Operations: Brush, spray, or dip parts to prevent corrosion and flash-rust
Use on parts for indoor or outdoor protection. Protection indoors can last up to one year and the protective film can be removed by cleaning with a high quality cleaner such as Eliminator 214 Multi-Purpose Cleaner.

Available In:

P-106003	1 32 oz
P-106000	1 Gallon
P-106001	4 Gallon Case
P-106005	5 Gallon Pail
P-106055	55 Gallon Drum

Physical & Chemical Characteristics:

Appearance/Odor.....	Amber Liquid/Mild Solvent
Weight (lb/gal)	8.6
Flash Point	109° F
