

HE&M[®] 206 Rust Remover ELIMINATOR

Eliminator 206 Rust Remover is environmentally friendly and removes even the deepest rust on all types of mild steel and iron

- Non-toxic, non-hazardous, 100% biodegradable
- Easy to dispose of
- Safe and pleasant for workers to handle
- Replaces strong acids used in pickling baths
- Eliminates sand blasting of rusted parts
- No DOT restrictions or labeling requirements

Eliminator 206 is a specially formulated, non-hazardous and environmentally friendly rust remover. Eliminator 206 removes even the deepest rust on all types of mild steel and iron. Eliminator 206 is pH neutral and 100% biodegradable. Eliminator 206 has the ability to brighten copper and other yellow metals. The green chemistry behind Eliminator 206 makes this product operator friendly, and does not require special protective wear or disposal requirements.

Application:

Operations: Dip and soak parts for 30 minutes to 24 hours, depending on the degree of rust present. No scrubbing required.

For parts with mild rust, Eliminator 206 can be diluted with water up to 10:1 for economical performance.
