

HEM[®] & ELIMINATOR

210 High-Speed Cutting Fluid

**Eliminator 210 is a Bio-Based Straight Cutting Oil.
Eliminator 210 can be used as spray mist for sawing.**

- No hazardous volatile organic compounds
- Low toxicity, low odor, and operator friendly
- Reduce HSE issues, such as dermatitis
- High flash point, reduced smoke and misting
- Excellent Lubricity and film strengths
- Increased speeds and feeds
- Decreased fluid disposal costs

Eliminator 210 is high performance, low to medium viscosity; vegetable based cutting oil, ideal for machining and grinding of almost all materials. It is ideal for high production shops machining aluminum, stainless steel, high temp alloys, titanium, and other difficult machine materials. Eliminator 210 is formulated with a vegetable base stock, making this product biodegradable and more environmentally friendly than traditional straight cutting oils, while at the same time providing the same exceptional performance. Formulated with a renewable plant resource and an EP package, Eliminator 210, is both able to handle heavy-duty machining operations and reduce environmental impact.

Application:

Eliminator 210 is straight cutting oil and should be used in its delivered, concentrate form. For optimal performance, Eliminator 210 should be kept clean and dry. Excellent in Swiss screw machines, honing, turning, and spray mist cutting.

Available In:

| | |
|----------|----------------|
| P-210000 | 1 Gallon |
| P-210001 | 4 Gallon Case |
| P-210005 | 5 Gallon Pail |
| P-210055 | 55 Gallon Drum |

Physical & Chemical Characteristics:

| | |
|--------------------------|-----------------------------|
| Appearance/Odor.... | Clear Amber Liquid/Pleasant |
| Weight (lb/gal) | 6.95 |
| pH (20:1 mix with water) | None |
| Flash Point | 198° C |
